SUMMARY

Flutter Developer with 3+ years of experience building production-grade Android & iOS apps. Strong expertise in Flutter, state management (Bloc, Riverpod, Provider), Firebase, and REST API integration. Proven track record delivering scalable, performance-optimized apps in logistics, healthcare, and SaaS domains.

SKILLS

Language & Frameworks

Dart • Flutter 3.x • Provider • GetX • BLoC • Riverpod

Testing & Quality

Unit, widget, and integration testing • DevTools performance profiling • Bug triage & release sign-off

DevOps & Release

CI/CD via GitHub Actions • CodeMagic • APK/IPA builds • Firebase App Distribution • Google Play / App Store uploads.

Backend & Cloud

Firebase (Auth, Firestore, Functions) • RESTful APIs • Laravel APIs • Secure environment management • Supabase

Performance & Security

DevTools frame-rate & memory tuning • ProGuard / R8 app-size reduction • Secure key storage

PROFESSIONAL EXPERIENCE

Maahey Technologies, Inc – San Jose, California, USA

Flutter Mobile App Developer

Full-Time – remote

August 2025 - Present

- Refactored and optimized existing Flutter applications to improve performance and stability.
- Fixed complex production issues and improved app scalability.
- Contributed to new feature development for Android and iOS apps.
- Worked closely with team members to deliver clean, maintainable code.

Teckticks – Gujranwala, Pakistan

Flutter Mobile App Developer

Contract – remote

March 2025 - July 2025

- Built a large-scale Flutter application for a travel company.
- Developed modules for flight booking, hotel reservations, and document processing.
- Integrated multiple REST APIs and handled end-to-end mobile development.
- Delivered Android & iOS builds and supported testing and deployment.

Bytes Software House – Gujranwala, Pakistan
Full Stack Mobile App Developer
Full-time – on-site
April 2023 - December 2024

- Developed and maintained mobile apps for **logistics and healthcare domains**.
- Implemented scalable state management and Firebase integrations.
- Improved app performance and user experience across multiple projects.
- Collaborated with designers and backend teams to deliver production-ready apps.

Abiding-Tech – Gujranwala, Pakistan
Internship – on-site
Android Developer Intern
July 2020 – August 2020

- Assisted in Android app development using Java and Android SDK.
- Worked on UI implementation, bug fixes, and performance improvements.

PROJECTS

UR'CHOICE – Social & Real-Time Messaging App

- Built a large-scale Flutter social app with **real-time chat**, media sharing, and user profiles.
- Implemented **Firebase backend** and WebSocket-based messaging.
- Integrated **location-based features** using Google Maps and geolocation.
- Worked with **audio/video calling SDKs** and optimized app performance.

MOSHARRAQ – Salon Booking SaaS Platform

- Developed a multi-role Flutter app for salon discovery, bookings, staff management, and ratings.
- Integrated Google Maps to show nearby salons and services.
- Connected app with REST APIs for booking and business workflows.
- Used GetX for efficient state management.

PILATIX – Fitness & Home Workout Platform

- Developed Flutter apps for users and admins to manage workouts and challenges.

- Implemented multilingual support, guest mode, and progress dashboards.
- Used Firebase for authentication, data storage, and real-time updates.
- Built admin features for managing exercises and workout plans.

EDUCATION

Virtual University of Pakistan – Pakistan
Bachelor's in Software Engineering
Graduated: 2023

GIFT COLLEGE GUJRANWA– Pakistan
FSC Pre-Engineering
Graduated: 2019

CERTIFICATES

AppTech Gujranwala – Gujranwala, Pakistan
Certification in Android Development
Graduated: 2020
